January 2, 2011

To whom it may concern,

Danielle Mills has worked for Buno Construction, LLC during the summer months for the past 6 years which included her summer before she started college and the summer after she graduated college. Danielle is a dependable, self-motivated and conscientious worker. I would highly recommend her for employment in the avenue of public relations of any kind.

Here at Buno Construction, Danielle started work as a Traffic Control Flagger. Her duties included keeping the traveling public and the construction crews safe. She caught on very fast and the following season she worked herself up to Traffic Control Supervisor. This came with the responsibility of assessing the traffic control needs for each facet of the project, placing the construction signs in the proper placement and implementing the Traffic Control Plan.

Buno Construction is a Public Works Contractor, which means most all of our work is for City, County and Local Water & Sewer Districts. We work hard to keep good public relations and have a good reputation with the owners we work for regarding this issue. Danielle also worked as a liaison between the residents and our company when we would work in these residential areas. Her people skills and personality coupled with her knowledge of the company's needs made her an effective representative for Buno Construction.

Danielle Mills is a hard working, dependable, honest and thoughtful Individual and I would recommend her for any position that she is seeking.

Sincerely,

Jeri K Hurtin

CFO
